

## Mac / Firefox Setup and Configuration

1. Open <https://login.staffschedulecare.com/> (use Google Chrome or Safari )
2. Click on the link “ [this Version](#) ” under “ **Mac Users** ”. Download Firefox47.dmg file and open it.

fps:1.76/30

3. Copy the Firefox.app to Application folder.

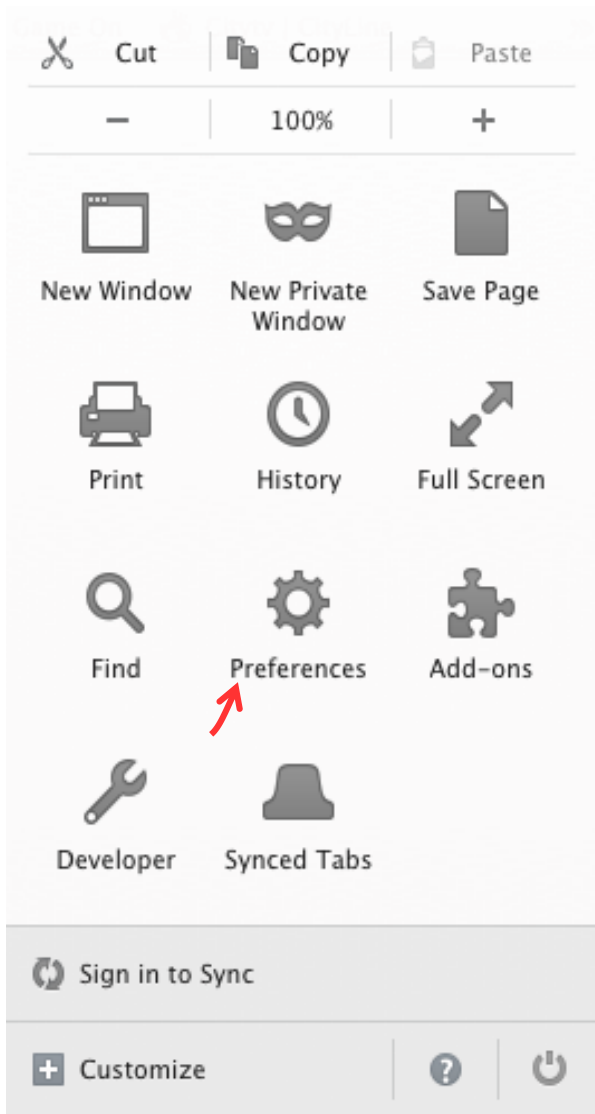

4. Open Applications folder and click on Firefox.app

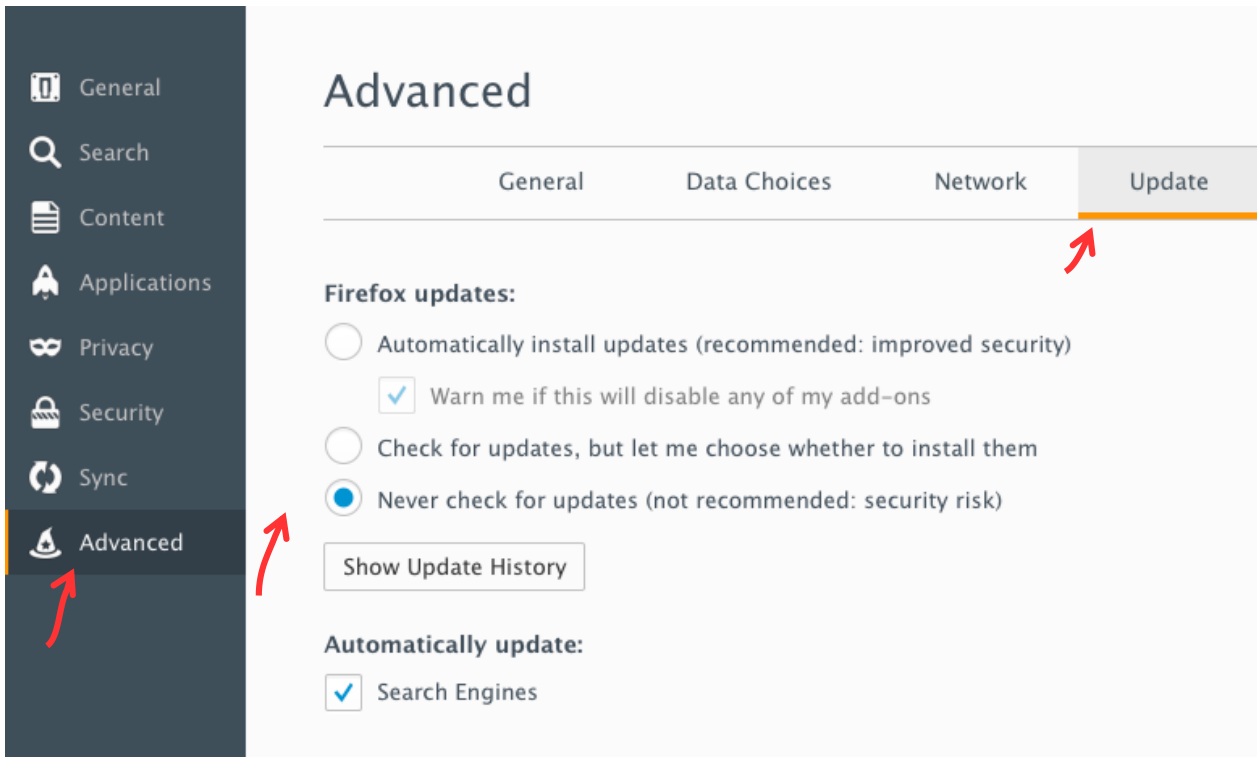

4. In order to disable Firefox update feature, click on the Menu and select Preferences.

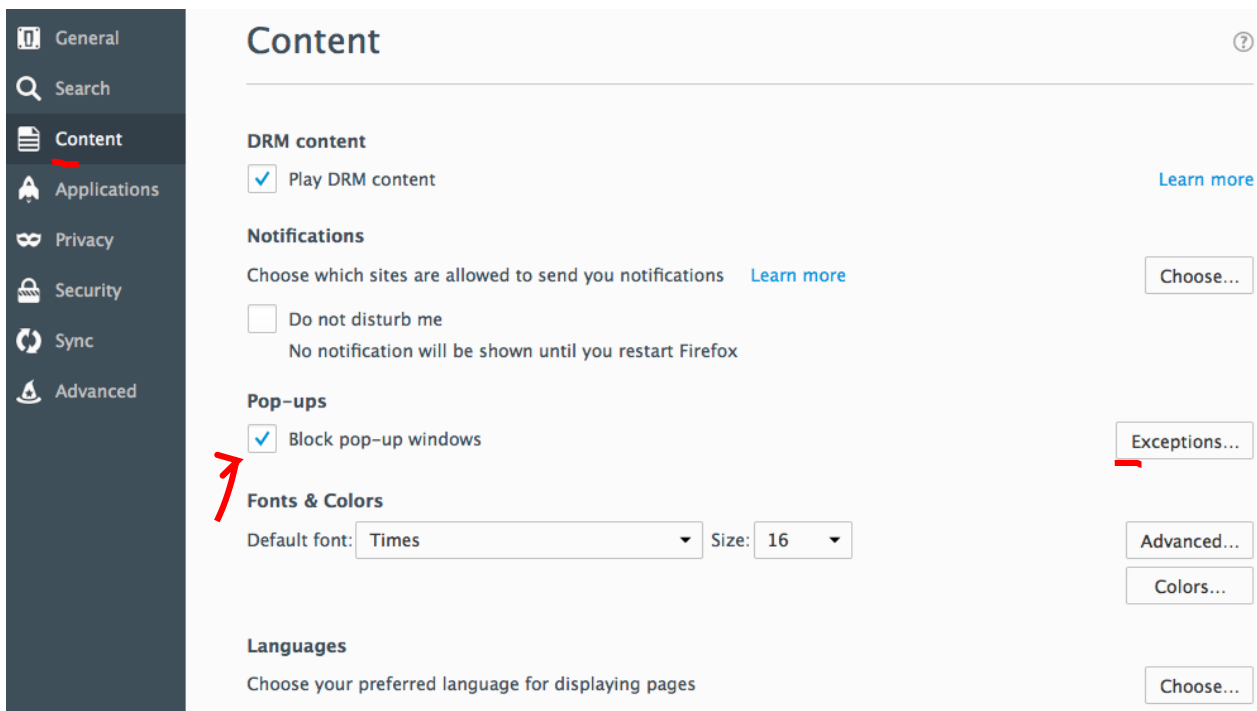

5. Select “Advanced” from the side menu on the left and click on “Update” after. Check the radio button next to “Never check for updates (not recommended: security risk)”.

6. Select "Content" from the menu on the left and either
  - 6.1. clear "Block pop-up windows" or
  - 6.2. add "\*.staffschedulecare.com" (for SSC clients) or "\*.iddtime.com" (for IDT clients) to the Exceptions list.

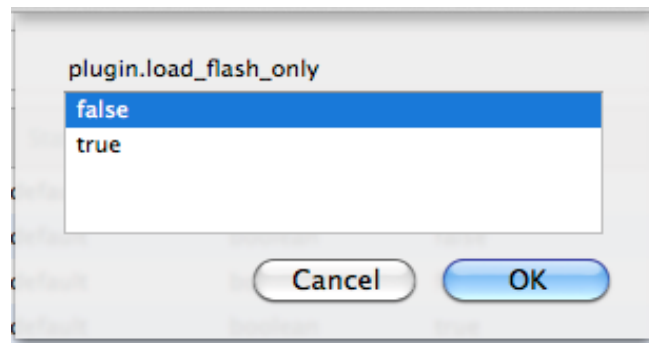

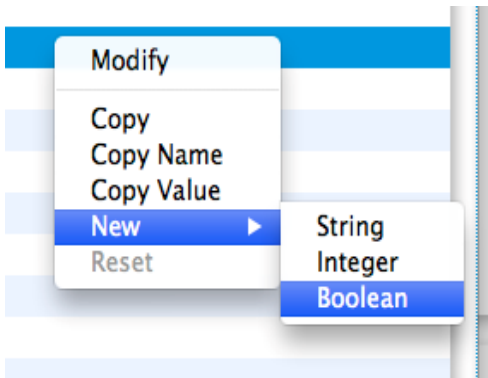

7. Close "Preferences" tab
8. Start a new tab in Firefox and type "about:config":

Click on "I'll be careful, I promise!" if a warning message appears.

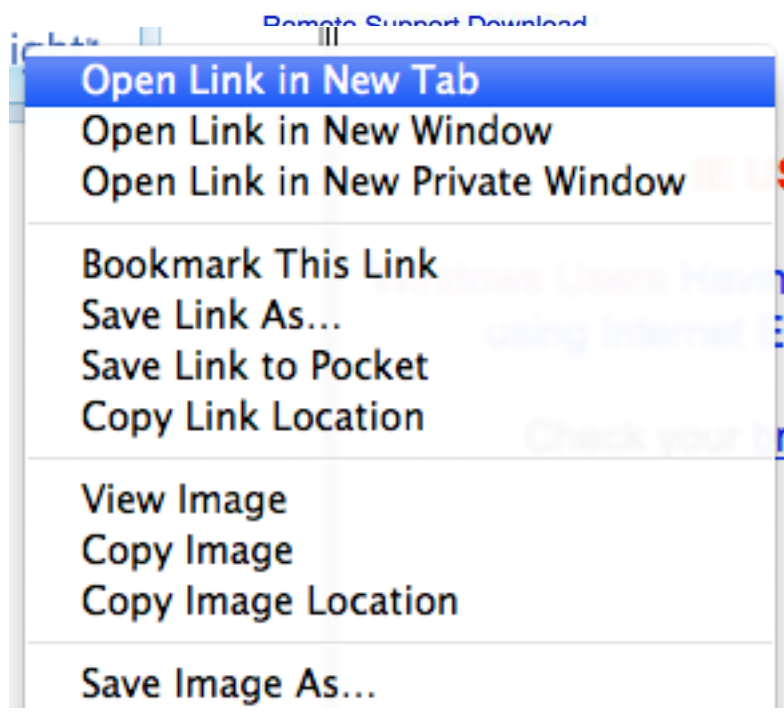

9. Create (right click in the window) a new Boolean value ***plugin.load\_flash\_only*** and set it to ***false***.

10. Restart Firefox.
11. Open "<https://login.staffschedulecare.com>" in Firefox and right-click on the link "Install"
